EDUCATION

STI College

Bachelor of Science in Information Technology

Dasmariñas, Cavite

Jun 2015 - May 2019

- Cumulative GPA : 1.77
- STI Open Scholarship (2015-2016)
- Actively Participated in school activities (e.g., Into Programming, Tagisan ng Talino, Essay Does IT!)
- Awarded the Best Mobile App in our Mobile Development class
- Best Thesis Nominee (2019)

PROFESSIONAL EXPERIENCE

Google Operations Center

Tech Process Senior Associate

BGC, Taguig, Manila

Nov 2022 - Present

gUP Payments 1P

- **Cloud Operations:** Performed necessary configurations to enable and test new payment services.
- **Stakeholder Collaboration:** Served as the primary technical bridge between Engineering and Product Managers to resolve root-cause infrastructure issues.

gUP Payments 3P Imali

- **Integration Support:** Involved from the end-to-end integration of enabling FOPs across different countries.
- **Technical Problem Solving:** Debugged and resolved non-standard and complex integrations.
- **Team Collaboration:** Partnered with multiple cross-functional teams including PSEs, External Partners, Banking Team, UX Team, Finance Team, Engineering and Product Managers to align third-party integrations with Google's technical standards and business KPIs.
- **Operational Excellence:** Followed documented process flows, playbooks, and incident documentation to resolve partner issues.
- **Automation Ideas:** Identified opportunities to build and deploy 5+ internal productivity tool, significantly saving agents' FTE hours.

Tech Stack/Tools: Java, Python, Unix Shell Scripting, Google Appscript, PLX Tools, Google SQL, Google Cloud, Google Internal Tools (Cider, Bugarizer, CRD, CL Monitor, Critique, Google Debugging Tools), Gemini, AI Automations

Projects Created

- **Payments Formatter** - HTML, CSS, JavaScript, x20
- **FOP Launch Announcement Team** - Google Appscript, HTML, CSS
- **Imali Icon Checker and Data URI Converter** - Google Appscript, HTML, CSS
- **Project Imali I/O** - Google Appscript, HTML, CSS
- **Project Venn** - Google Appscript, HTML, CSS
- **Imali Pre-Launch Stage Analysis Report Dashboard** - PLX Dashboard / PLX Scripts

The Goodyear Tire & Rubber Company

L2 Application Development Analyst

BGC, Taguig, Manila

Oct 2021 - Nov 2022

- **System Stability:** Managed 24/7 support for unit and integration testing; optimized system uptime through proactive server diagnostics and Splunk monitoring.
- **CI/CD Foundation:** Utilized Jenkins and Docker for software deployment, ensuring rapid integration and compatibility across diverse environments.
- **Infrastructure Optimization:** Automated server-side reporting using VBA and Power Automate, cutting manual reporting cycles by 40%.
- **Security & Networking:** Managed server SSL Certificate Authorities on Windows environments and maintained NGINX configurations.

Tech Stack/Tools: Java, PHP, ExtJS, VBA, Unix Shell Scripting, Docker, Jenkins, Github, Splunk, NGINX, VMWare, Autosys, Powershell, Putty, ServiceNow, Microsoft SSMS, Apache Web Server, Azure Cloud, RHEL, Power Automate, MS 365 Tools, L2 Wiki

Projects Created

- **MES Dashboard** - Microsoft Excel VBA
- **MES Discrepancy Report Tool** - Microsoft Excel VBA
- **Merge Data Tool** - Microsoft Excel VBA
- **SSL/TLS Certificate Expiration Tracker** - Microsoft Excel VBA
- **Plant Server Locations Website** - HTML, CSS, Javascript
- **GMIT Channel and Reminder Chatbot** - Power Automate, Microsoft Planner and Tasks API
- **Several Batch Jobs for the Project** - Unix Shell Scripting
